Learnings for the learning industry from the energy revolution in Europe

We have broken this article into 4 parts

- Past
- Present
- Future
- Relationships

Past

Energy has been at a premium in the past. It was a big riddle.

Present

For Management

- Pockets on viable innovations are emerging in the world
- Europe is tapping energy like wind, waste and volcano power

For Learning Teams

- Tap viable innovations in ecosystem

Future

More and more viable innovative options will emerge

Relationships

Build a networking of viable innovators

Summary

Tap innovative spots in the ecosystem and make them sustainable with time may be the mission and challenge of the learning community looking forward
